

What do you want to know and how do you want to know about it?

Consumer perspectives of PREGNANCY COUNSELLING and EDUCATION in Australian women with kidney disease: a national survey

We are looking for Australian women diagnosed with kidney disease and their partners/family members. We are conducting a survey study looking to understand their thoughts and experiences on current pregnancy education, information needs and preferences.

If you are a woman aged **18 years and over** and **diagnosed with kidney disease (or woman's partner/family members)**, you can help us with this survey study.

This survey will take approximately 15-20 minutes. The survey questions will be about kidney disease and pregnancy education.

If you are interested in completing this survey, please visit <https://www.anzdata.org.au/anzdata/for-patients/for-patients-2/consumer-perspective-surveys/> and follow the icons or follow the QR codes below.
